HEADLINE

Rural Development Professional

SUMMARY

Resolute, driven and result-oriented; I am rural Development and management professional with experience in program Management, capacity Building, Community Development, District coordination, Livelihood Enhancement and Local self Governance. I have demonstrated continuous success in project implementation and monitoring, institutional & rural development, preparation of training modules and District coordination. In my current role as District consultant, I am carrying out resource mobilization and resource management to develop better programmes. I have ability to understand issues and predicament at grass root level and natural problem solving skill in providing systematic solutions. I am constantly working to wards successfully managing the project including financial aspects, undertaking research work and networking with different stakeholders like business, community, NGOs and government organizations/agencies.

With tireless capacity to work for the upliftment of the district and as an active member of the community, I have proved my self as an excellent resource and an asset for the organizations I have worked with. As a District consultant, I am developing enabling policies for different issues after taking views of the stakeholders and devising

procedures for effective implementation of the same. Using my keen planning and implementation skills, I am devising policies and programmes to address the concerns of the marginalized communities and other deprived social groups. Along with that, I am also monitoring, providing guidance, initiating innovative ideas for consistent growth of the project, organizing district level multi stakeholder forum and sustaining their involvement.

Poised with an inquisitive and learning aptitude, I like to face new challenges and try my best to meet or exceed the expectations and demands. I strongly believe in continuous learning and possess an innovative approach. Armed with excellent decision making, project management and district coordination skills, I am steering community mobilization, strategy development programs and monitored and evaluated micro level organizations. Being an excellent communicator, I am liaising with government officials, community leaders for support and convergence and coordinating with the NGOs involved in the project for the project development to ensure efficient services. With my multitude of the competencies and work experience, I am confident to carry forward vision, goals & objectives of the district with sufficient ease by using my administration, networking and managerial skills.
